Jewellers Town AURUM B1
1-26-2, Higashi-ueno, Taito-ku, Tokyo, 110-0015

ジュエラースタウン・オーラム B1
〒110-0015 東京都台東区東上野1-26-2

Historically Sri Lanka has continuously supplied high quality gemstones to the world for over 2,000 years. And following on from last year's single country exhibition, the 2nd Sri Lanka Gem Festa Tokyo 2017 is organized again by the National Gem and Jewellery Authority, which is the sole government Corporation controlling the gem and jewellery industry in Sri Lanka.

The Embassy of Sri Lanka in Tokyo and the Japan Gem Society jointly organize and operate this exhibition, where you can enjoy numerous brilliant high quality gemstones, such as a variety of color in blue, purple, pink, yellow and green sapphires, padparadscha, ruby, spinel, garnet, chrysoberyl catseye, moonstone and so on.

Moreover, the JGS will conduct unique study workshops during the exhibition at the same venue. We actually can learn about the

color range, treatment and prices, through the padparadscha sapphires and chrysoberyl catseyes which will be picked out from amongst the merchandise which will be displayed. (The details of the JGS study workshop will be informed by FAX or E-mail exclusively to those who completed the "Admission Registration".)

The Jewellers Town AURUM B1 venue will have the authorization as "bonded warehouse" by the Tokyo Customs, and the merchandise displayed will be regarded as bonded foreign goods. We gladly support those who need help to import the products, even for small purchases. We would be pleased if you could consider this exhibition for your opportunity to purchase.

Why miss this best stocking chance and not prepare for the year-end sale!

By instruction from the Tokyo Customs, we'd be asking for prior registration about admission. Please use the FAX FORM below or the WEB REGISTRATION FORM is also available at the URL or the QR code. ↓
